ABOUT ME

I am a Front-End Developer with entry-level experience specializing in web development, user interface design, HTML and ReactJS. I enjoy coding and the challenge of learning something new everyday. My current goal is to pursue a career in front-end development.

WORK EXPERIENCES

Internship   **01/2022-03/2022**
Skyblaze Studios

- Learn about ReactJS framework, Typescript and Git.
- Approach the workflow and participate in the construction of a few real projects.

Front-end Developer   **03/2022-Present**
Skyblaze Studios

- Develop and maintain front-end functionality of websites.
- Do multiple projects simultaneously with high standards and performance.
- Get involved in creating a website from scratch.
- Participate in finding and fixing bugs to optimize project performance.

PROJECTS

Clone Erase.bg
06/2022-08/2022
This website provides the feature to separate the subject image from the original image and add a new background to the image after separation.

- **Technology used:** NextJS, Typescript, SASS
- **Demo:** *https://erase-bg.vercel.app/*
- **Github:** *https://github.com/ltghuy/erase.bg*

Moren Ecommerce
07/2022
An e-commerce website that specializes in selling fashion clothing. This project has main features such as: view product list, product information, shopping cart...

- **Technology used:** NextJS, Typescript, Redux, TailwindCSS
- **Demo:** *https://moren-ecommerce.vercel.app/*
- **Github:** *https://github.com/ltghuy/moren-ecommerce*

Game 2048
07/2022
A project inspired by motion graphics by Romain Cousin. And this is also my first project with Redux.

- **Technology used:** ReactJS, TwailwindCSS, React-easy-swipe
- **Demo:** *https://2048-clone-blue.vercel.app/*
- **Github:** *https://github.com/ltghuy/2048-clone*

Pokemon Flip Card
09/2022-10/2022
Based on the classic game of the same name, this project is the first project I built with VueJS after finishing the Youtube tutorial.

- **Technology used:** VueJS, SASS
- **Demo:** *https://pokemon-flip-card.vercel.app/*
- **Github:** *https://github.com/ltghuy/pokemon-flip-card*
